At your service...

... since 1946

GENERALFARM, a customised service

Generalfarm has been on the market since 1946.

Our decades of experience has allowed us to make ourselves known and appreciated, becoming a point of reference in the panorama of **animal husbandry and livestock equipment**.

Our strength is the personalized service that we have always tried to ensure to our customers, helping them to find the most suitable solutions to any kind of problem, according to different needs.

Sales service: from Monday to Friday from 08.30 - 12.30 from 14.30 - 18.30.

Possibility to place orders by:

Phone	0522/514251
Cell. WhatsApp	338/2805115
Internet email:	info@generalfarm.it
WEBSITE	www.generalfarm.it

Possibility to request quotes for:

- . Artificial insemination laboratory set-up, complete with instrumentation and furniture
- . Consumables for Artificial Insemination
- . Articles and instruments in general for veterinary and zootechnical use
- . Animal identification systems :
 - electronics with transponders
 - traditional with brands
 - official ministerial ear tags manufacturer code BDN 447
- . Tattooing tools and products
- . Full range of products for hoof trimming
- . Articles of infrequent use and difficult to find

Delivery service: our company is able to offer a prompt delivery service directly with own agents for the regions of North Italy.

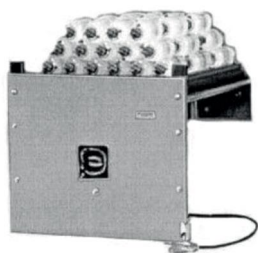

For the other italian regions and all over the world, we are able to offer a fast and safe service using contracted couriers partners.

Technical assistance service: at our Headquarters we are able to offer a specialized assistance service in repairs of veterinary and zootechnical equipment.

Several instruments that you will find in the catalog, are produced directly by us and CE certified.

Consulting service: our experience helps us to be a qualified point of reference to help solve the various problems that may arise in the running and management of a modern livestock farm.

Our knowledge of the market and keeping up to date on the continuous developments of the various techniques of insemination and breeding, helps us to provide the most up-to-date information and the definitive solution to any problem.

to move seminal
doses in bottles

**Art. 023400

Art. 035015
HEATED TABLE WITH UNIT

Analog timed
electrical
outlet

Art. 125900
DAILY PLUG TIMER

For placement of seminal doses in self-fertilization, stimulates the sow

**Art. 079420
PLASTIC FERTILIZATION ARCH**

to hook the semen dose to the support of an a.i. arch

**Art. 079421
FERTILIZATION ARCH: SPRING MM.32**

Boar-smelled aerosol, for a quick and effective heat research.
Pack of 250 ml

**Art. 030400
BOARMATE SPRAY 250ml**

Boar-smelled aerosol, for a quick and effective heat research.
Pack of 80 ml

**Art. 030410
BOARMATE SPRAY 80ml**

LONG SPOUT
Containers for a.i. pig semen, cartons of 1000 pieces

**Art. 131800
ALUMINIUM BAG**

LONG BEAK,
Container for a.i. pig semen, cartons of 1000 pieces

**Art. 131820
TRANSPARENT BAG FOR F.A. GFR**

for in-company transportation of accessories and doses for a.i., with insulated compartment

**Art. 130000
CADDY KUBUS SWINE A.I.**

mod. HONE
Post-cervical
HONE single-use cannula
length 75 cm.

**Art. 015462
POST-CERVICAL DISPOSABLE CANNULA**

ULTRADEEP GREEN
post-cervical
single-use
cannula
length 74 cm.

Art. 015463
POST-CERVICAL SINGLE-USE CANNULA

MOD. HONE WITH CAP
1x1 for post-
cervical
fertilization,
complete with
cannula, cartons of
500 pieces

Art. 015473
POST-CERVICAL SPONGE SINGLE-USE CATHETER

ULTRADEEP SOFT
GREEN single bag,
complete with
cannula, cartons of
500 pieces

Art. 015471
**SINGLE-USE POST-CERVICAL CATHETER
SPONGE**

SLATS W/CAP
bugs of 5 pieces,
cartons of 500
pieces

Art. 015455
BLUE SINGLE-USE SPIRAL CATHETER 5pcs

(pack 5 pieces) also
available in version
1x1 and version 1x1
with gel, cartons
500 pieces

Art. 015451
**SINGLE-USE SPIRAL CATHETER WITH
CAP**

Y2H - ENVELOPE
SINGLE-USE sponge
catheter with flow,
mounted,
individually
packaged

Art. 015453
SINGLE-USE SPONGE CATHETER WITH DEFLECTOR

MOD. EASY OPEN
conf. 1x1 with easy
opening envelope,
cartons of 500
pieces

Art. 015447
**SINGLE-USE SPONGE CATHETER
WITH CAP 1x1**

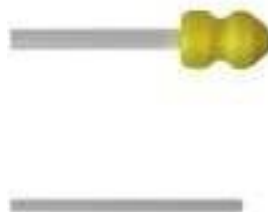

Bags of 5 pcs
Cartons of 500 pieces

Art. 015442
SINGLE-USE SPONGE CATHETER WITH CAP

in bags of 5pcs,
specific
insemination
catheter for gilts,
cartons of 500
pieces

Art. 015448
SMALL SINGLE-USE SPONGE
CATHETER WITH CAP

single-use sponge
catheter without
cap, packed in
individually packed
bags

Art. 015441
SINGLE-USE SPONGE CATHETER WITHOUT CAP
1x1 YE YELLOW

white spiral, in
envelopes of 4pcs,
cartons of 1000
pieces

Art. 015411
NEW STRONG SINGLE-USE
CATHETER

for post-cervical
insemination, in
steril bag 1x1,
cartons of 500
pieces

Art. 015460
SINGLE-USE CATHETER SOFT QUICK

for cleaning vulve
before
fertilization,
disinfection of the
skin in general

Art. 078520
CHLOREX 1000 tank LT.5

for stimulation of
the sow in self-
fertilization

Art. 115100
FERTILIZATION BELT

Mod. LONG BLUE
flexible connection
between the
insemination
catheter and the
seminal dose, 10
pcs bags, carton of
1000 pcs

Art. 114300
CATHETER FITTING FLOW

Mod. SHORT YELLOW
flexible connection
between the
insemination
catheter and the
seminal dose, 10
pcs bags, carton of
1000 pcs

Art. 114310
CATHETER FITTING FLOW

Diluting
menstruation for
medium-life pig
seed, 4-5 days

**Art. 014750
CELLOR PLUS DILUTER 5 GG**

10 DAYS - ENVELOPE OF
LT.1 Diluting
menstruation for
very long-life pig
seed, 10 days

**Art. 014751
PREMIUM CELLOR DILUTER**

Diluting
menstruation for
long-life pig seed,
8 days

**Art. 014754
CELLOR VITAL DILUTER 8 GG**

preserves the
fundamental
biological
functions,
contributes to the
osmotic
maintenance of the
seed, conservation
4 days

**Art. 014720
KOBIDIL DILUTER 50 gr**

Diluting
menstruation for
short-life pig seed,
2-3 days

**Art. 014709
KUBUS BTS DILUTER**

Diluting
menstruation for
medium-life pig
seed, 3-4 days

**Art. 014713
KUBUS MR-A 3 DILUTER**

Diluting
menstruation for
long-life pig seed,
7 days

**Art. 014706
KUBUS MR-A 7 DILUTER**

Diluter with
antibiotic
supplementation,
ideal for storing
sperm for 3-4 days.
Manufactured in
accordance with ISO
9001 and GMP
standards.

**Art. 014707
MERK III DILUTER**

to fix filters or
gauze to the mouth
of seed collection
thermos

Art. 017110
ELASTIC BAG 1 KG

to fix filters or
gauze to the mouth
of seed collection
thermos

Art. 017111
ELASTICS IN PARA D.50 BAG
KG.1

for filtering tapioca
seminal

Art. 117520
SEED FILTERS DIAM.24
BAG 200 pcs.

Mod: Breaking Cap
system, for easy
opening of the cap

Art. 012113
SINGLE-USE BOTTLES 100ml MOD. BREAKING

non-steril gauze,
cut, kg. 1, sizes
available
cm. 10x10 - 15x15 -
20x20 - 30x30 -
40x40

Art. 016800
NON-STERILE GAUZE CM. 40x40

Non-spermicidal
insemination gel,
dense formula for
better adhesion to
the catheter

Art. 024102
GEL - FARM for A.I. bottle 260gr

Non-spermicidal
insemination gel,
dense formula for
better adhesion to
the catheter

Art. 024103
GEL - FARM for A.I. x KG.5

TANK LT.5 gel
insemination

Art. 024130
CLEANETTE IODIZED GEL

FOR SEED
SAMPLING,
practical, stretchy,
maximum
sensitivity

Art. 013308
SHORT ELASTIC GLOVES
100pcs

DUST-FREE
latex free, AQL 1.0

Art. 013304
VINYL SAMPLING GLOVES
100pcs

for self-
fertilization,
documentation
available on
request

Art. 136400
PREFER PROBE FOR SWINE A.I.

GREEN bags for
semen doses a.i.
swine, to be
welded after filling,
roll of 250pcs

Art. 119510
BLISTER BAGS WITH NEEDLE

Bags for semen
a.i. swine, to be
welded after
filling

Art. 119520
ROLL COCHETTE BAGS 250 GFR

ballasted, to
stimulation of the
sow during
insemination

Art. 079403
KUBUS SOW BAGS

pack 100 pcs

Art. 016300 - DISPOSABLE
SINGLE-USE PRELIEVE BAGS 20x30

pack 100 pcs

Art. 016301 – SINGLE-USE
PRELIEVE BAGS 30x40

box package
1000 pcs

Art. 016302
POLYETHYLENE BAGS cm.40x60

box package
250 pcs

Art. 016303
POLYETHYLENE BAGS cm80x100

CM.25x35, tear
bags 100pcs,
available in
various sizes

Art. 016330
NON-TOXIC PRELIEVE BAGS

CM.40x50,
tear bags
KG.5,
available in
various sizes

Art. 016333
NON-TOXIC PRELIEVE BAGS

CM.40x60, tear
bags CF.105pcs,
available in
various sizes

Art. 016331
NON-TOXIC PRELIEVE BAGS

with built-in
filter, to be torn
off after
harvesting

Art. 016306
PRELIEVE BAGS WITH FILTER

PRELIEVE/DILUTIO
N 11123/0200
Single-use,
completely
hygienic, during
collection until the
sperm is dispensed

Art. 119700
MINITUB BAG WITH FILTER

13203/4001
provides a
disposable,
completely hygienic
solution during seed
harvest

Art. 119702
MINITUB PRELIEVE BAG

Provides a hygienic and fast disposable solution of semen collection

**Art. 136410
COLLECTOR PRELIEVE BAG**

1000 TEARS, to sanitize the sow's vulve before fertilizing

**Art. 128730
PORCLEAN BUCKET WIPES**

1000 TEARS, to be Inserted in the appropriate bucket

**Art. 128731
PORCLEAN WIPES: RECHARGE**

POLYSTYRENE to be used with an inner collection bag

**Art. 017103
TERMO.CO SEMEN PRELIEVE**

plastic material, glass chamber

**Art. 017101
SEED PRELIEVE THERMOS WITH HANDLE**

to prepare seminal doses, to be paid after filling

**Art. 113902
GRADUATED FERTILIZATION TUBES 95ml**

fast, easy, and hygienic insemination, the tube empties completely by itself, without manual pressure

**Art. 113900
FERTILIZATION TUBES MINITUB 95ml**

for automatic seed collection system

**Art. 136420
DISPOSABLE VAGINA COLLECTOR**

double-distilled
water, highly
purified F.U., with
emptying tap

Art. 128300
DOUBLE-DISTILLED WATER
CUBITAINER LT.20

sterile pyrogenic
water for dose
preparation,
available in sizes
1000 - 2000
- 5000 ml

Art. 009201
STERILE WATER IN BAGS LT.5

to mix liquids using
magnetic stirrers

Art. 017301
MAGNETIC ANCHORS 8x40 mm

Available in capacities:
400 - 600 -
1000 - 2000 - 3000 -
5000 ml

Art. 016204
BEKER BORAL GRAD. 2000 ML

Available in
capacities: 400 - 600
1000 - 2000 - 3000 -
5000 ml

Art. 016205
BEKER BORAL GRAD. 3000 ML

Available in capacities:
400 - 600
1000 - 2000 - 3000 -
5000 ml

Art. 016208
BEKER BORAL GRAD. 5000 ML

Available in
capacities: 1000 -
2000 - 3000 - 5000
ml

Art. 039911
FLASK BORAL GRAD. 3000 ML

ISO laboratory
bottle, in
borosilicate glass,
with blue screw
cap, capacity 1000
ml

Art. 015605
ISO 1000ml BOTTLE WITH CAP

ISO laboratory bottle, in borosilicate glass, with blue screw cap, capacity 2000 ml

Art. 015604
ISO 2000ml BOTTLE WITH CAP

device that allows a precise microscope count of sperm number

Art. 070200
BURKER CHAMBER D.C.P.

in convenient reagent strips

Art. 022801
INDICATOR PAPER PH 0-14

graduated cylinder in borosilicate glass, class A, hexagonal base, with beak. Also available with 2000 ml capacity

Art. 015901
HIGH SHAPE CYLINDERS 1000 ML

graduated cylinder in borosilicate glass, class A, hexagonal base, with beak. Also available with 1000 ml capacity

Art. 015902
HIGH SHAPE CYLINDERS 2000 ML

Made of PMMA U.V. grade, possess a clear and sharp optical path with indication of the relative direction. They are equipped with worked walls

Art. 102526
CUVETTE MACRO UV-GRADE 100pz

Pack 100pcs Microcuvette SDM 1 photometer, calibrated for pig seed

Art. 102529
CUVETTE MINITUB SPERMACUE

neutral detergent for glassware and laboratory accessories

Art. 016410
AUSILAB 110 DETERGENT KG.5

for easy filling of
semen and
menstrual diluting
bags

Art. 120600
PLASTIC POWDER FUNNEL DIAM.
120mm

for filling bottles
A.I.

Art. 014100
GLASS FUNNEL DIAM. 080mm

FIXED VOLUME
100-200 UL fixed
volume of 100UL or
200UL, use
universal
disposable tips

Art. 027630
CLINIPET MICROPIPETTE

REG.0,2 - 2 ml
Adjustable dosing

Art. 027620
SOCOREX ACURA MICROPIPETTE

metal, rubber hose
clamp holders

Art. 009205
MOHR CLAMP FOR RUBBER HOSE

to make an on/off
tap in the filling
tubes seminal doses

Art. 116000
CLIP HOSE CLAMP

MM 8-12 to make
an on/off tap in the
seminal dose filling
tubes

Art. 116002
LARGE CLIP HOSE CLAMP

box 250 pcs

Art. 016700
DISPOSABLE PIPETTES PASTEUR 7x230

Pack 500 pieces

Art. 016704
PIPETTE PASTEUR PLASTIC 3ml

with no-
exit filter

Art. 016702
STERILE GRADUATED PIPETTES 1cc

with no-
exit filter
disposable

Art. 016705
STERIL DISPOSABLE PIPETTES

Art. 115508
SEMEN BAGS LT.3

for the preparation
of menstruation and
subsequently for the
preparation of
semen doses

Art. 115507
SEMEN BAGS LT.5

for seed bags

Art. 115504
BAG DISPENSER CAP

for seed bags, to
be connected to
the peristaltic
pump

Art. 115503
PERISTALTIC PUMP CAP

shatterproof glass
thermometer,
suitable for precision
temperature
measurements in
water baths and
liquids in general

Art. 040500
CHEMICAL THERMOMETERS -
10+100

box 1000 pcs,
5 inner boxes
from 200 pcs

Art. 013401
COVERGLASS SLIDES PACK 1000pcs 20x20

20 micron 4 chambers

Art. 138100
LIFE OPTIC SLIDES PACK
25pcs

mm.26x76, cut and
washed, leaflet
between one and
the other.
Also available
pack 72pcs

Art. 013405
OBJECT SLIDES PACK 50 pcs

3.5/5.0 MHz
SECTORY

Art. 134701
ULTRASOUND FARM-SCAN 2000:
PROBE

COMPLETE
WITH PROBE
Mhz 3,5
Double battery,
wrist case,
carrying case.
Datasheet on
request

Art. 1134790
ULTRASOUND MACHINE FARM-SCAN 2000AV

WIFI PROBE
CONVEX. Use the
SmartVus
application to work
on any smartphone
or tablet, operating
system iOS.

Art. 152900
ULTRASOUND SCANNER
PROVETSCAN AS

WIFI PROBE
RECTAL. Complete
with Galaxy A 8"
tablet, protective
case and neck belt
for ease system of
work.

Art. 153100
ULTRASOUND SCANNER PROVETSCAN EQ-1

WIFI PROBE
LINEAR. High quality
and precision
ultrasound for
measuring posterior
fat and loin
diameter in pigs,
cattle and sheep.

Art. 153300
ULTRASOUND SCANNER
PROVETSCAN SF-2

RECTAL LINEAR
for reproductive
diagnostics in cattle,
horses and mares.
Color-Doppler
mode.
Wi-Fi probe

Art. 153400
ULTRASOUND SCANNER PROVETSCAN SR-2C WIFI

WIFI PROBE
CONVEX
Ultrasound with Wi-
Fi convex probe for
abdominal diagnosis
in cattle and horses,
with the best image
quality

Art. 153000
ULTRASOUND SCANNER
PROVETSCAN SS-3S

LINEAR WIFI
PROBE With
Accurate and high-
quality image for
measuring back fat,
diameter and loin
area of pigs and
cattle.

Art. 153200
ULTRASOUND SCANNER PROVETSCAN SU-3

(TABLET EXCLUDED)
Ultrasound
probe SV-2
WIRELESS,
sectoral, with Wi-Fi
connection on tablet
or smartphone.
Dedicated app with
free download.

Art. 149600
ULTRASOUND SCANNER
PROVETSCAN SV-2

available various types of
probes, anti-glare screen,
ideal for buiatry

Art. 133900
RKU10 ULTRASOUND SCANNER
COMPLETE WITH LINEAR RECTAL PROBE

Optional eyewear
viewer

Art. 150800
ULTRASOUND SIUI CTS-800
WITH LINEAR RECTAL PROBE

also available
5 kg pack

Art. 024108
ULTRASOUND GEL ECOGRAPHY GR.260

in cubitainer bag
with dispenser
bottle

Art. 024106
ULTRASOUND GEL KG 5

It allows you to
timely assist both
the calf and the
cow. Attach three
days before the
calculated
birthdate. Send
alarm messages
about an hour in
advance

Art. 153500
MOOCALL CALVING ALARM

for measuring the
thickness of the
dorsal fat, with
automatic
detection system
of 2 or 3 layers

Art. 113500
RENCO LEAN MEATER TICKNESS FAT

Grease meter
with battery-
powered data
acquisition
device, portable

Art. 110410
RENCO SONO GRADER

Primaflex pliers
needle for Allflex
ear tags
Conversion kit

Art. 000404
**PRIMAFLEX PLIER NEEDLE FOR
ALLFLEX**

Spare needle for
pliers, plastic and
metal, for Multiflex
ear tags.
Conversion kit

Art. 122202
MULTIFLEX PLIER NEEDLE

Transparent plastic cylinder, with draft tube. Adjustable dosing

Art. 029224
SERENA SYRINGE MOD.05T
0,5 cc

Transparent plastic cylinder, with metal bottle holder. Adjustable dosing

Art. 029262
SERENA SYRINGE MOD. 05T/PFM C/PF M

with bushing
connection for 250
ml bottles inclined
45°

Art. 029263
SERENA SYRINGE INCLINED
45° MOD. 05TC250

with plastic bottle
holder

Art. 029255
SERENA SYRINGE 0,5cc
MOD. 05TPF

with bushing
attachment for
250 ml bottles

Art. 029287
SERENA SYRINGE 12cc
MOD. 12TC250

with
draught
tube

Art. 029272
SERENA SYRINGE 12cc
MOD. 12T

INCLINED 45° with
plastic bottle holder
inclined 45°

Art. 029279
SERENA SYRINGE 12cc mod.12T/PF

MOD. 12TC250 45°
with bushing
attachment, for
250 ml bottles and
50 cm extension,
inclined 45°-
available with
bottle holder in
metal and long
cm.80

Art. 029290
SERENA SYRINGE 12cc EXTENSION 50cm

by 1cc with
draught tube

Art. 029202
SYRINGE SERENA MOD. 1T 1cc

Art. 029235
SERENA SYRINGE MOD.
5TPF 45°

INDEPENDENT
ADJUSTMENT
double 2cc syringe
with independent
adjustment and
draft tubes

Art. 029247
SERENA DOUBLE SYRINGE 2cc

COD. SD2-2
Plastic bottle holder
also available in
metal.

INDEPENDENT
REGULATION

Art. 029258
SERENA DOUBLE SYRINGE 2cc
MOD. 2PFM

pipetting machine
with sheath tube
draught or bottle
holder, measures
0,5-1-2-5-10cc

Art. 040702
SOCOREX SYRINGE 2cc

for lavenders or
oral treatments

Art. 043750
DEMAPLAST SYRINGONE 300cc
WITH ORAL CANNULA

for lavenders or oral
treatments in
general

Art. 043701
GENIA SYRINGONE 300cc WITH
ORAL BRASS CANNULA

for lavenders or
oral treatments in
general

Art. 043720
GENIA SYRINGONE 450cc
WITH CANNULA

with oral cannula,
allows the
administration of
large doses for the
big animal
treatment

Art. 043710
GFR PLASTIC SYRINGONE 400 ml

SEMI-AUTOMATIC HAUPTNER-MUTO SYRINGES

Art. 048902 ROUX REVOLVER 50cc adjust. from 1-2-3-4-5 cc

In plastic, complete with teat, with special regulation of the flow rate. Printed graduation

Art. 155200
LAMB BOTTLE ANTI-VAC 450ml

Plastic coating, for very long-lasting, hanging on fences, pens, etc...

Art. 155202
HOLDER for 5 LAMB BOTTLE ANTI-VAC

for colour coding covered ewes supplied without chalk

Art. 059900
SHEEP HARNESS SIRE-SINE

wax block in various colors available. To be used with the appropriate harness Art. 059900

Art. 059901
WAX BLOCK SIRE-SINE FOR SHEEP HARNESS

in steel

Art. 056200
CAPPONAGE SPOON PLIERS

for feeding up to 6 lambs, two tanks of 5 liters each, total capacity of 10 liters. Residue-free drainage thanks to angled base. Made of durable plastic

Art. 052700
LAMBS KITET BUCKET WITH 6 TEATS

spare teat for Kitet bucket, natural rubber

Art. 052701
LAMB TEAT SPARE

replacement valve for Kitet bucket, in metal

Art. 052702
VALVE SPARE FOR LAMB TEAT

in steel, blade
length 6 cm.

**Art. 039202
SHEEP NAIL CLIPPER**

Possibility of
effective use even
on dirty and felted
mantle. 400w motor

**Art. 035500
CONSTANTA SHEEP SHEARING
MACHINE**

ergonomic design,
high shearing speed,
200W motor

**Art. 035580
FARMCLIPPER SHEEP SHEARING
MACHINE**

BATTERY AKKU2
SCHAF SHEEP
CLIPPER
14.4 Volt power.
Operating time up to
90 minutes. Second
battery included.
Balanced weight

**Art. 035584
FARMCLIPPER SHEEP SHEARING MACHINE**

FIXED SUSPENSION
ideal for farmers
who independently
carry out the
shearing work

**Art. 035586
WELLINGTON SHEEP SHEARING
MACHINE**

13 x 4 TEETH

**Art. 043103
WELLINGTON COMBS FOR SHEEP SHEARING
MACHINE**

WITH 2 CANNULAS

**Art. 022501
THREE-QUARTERS FOR SHEEP
K211 CM. 9**

MULTIFEEDER 30lt -
cm.81x43x38 with
5 stations for
simultaneous
feeding. Each
compartment has
3LT volume.
Complete
with teats.

**Art. 155300
LAMB FEEDER 5 PORTION COMPARTMENTS**

FOR PIGS DIAM.18
Organic recreation
material, harmless
to health. Long
service life,
biocompatible

Art. 146620
NATURAL BITING RING FOR PIGS

COMPLETE
WITH CHAIN
75 CM
Game for well-being
piglets, to hang,
bite-resistant
material

Art. 146600
PIGLET TEETHING RING

Game for well-being
piglets, to hang,
bite-resistant
material

Art. 146610
**PIGLET TEETHING RING
WITHOUT CHAIN**

to prevent limb
spacing after birth.
With velcro closure.
Washable, with
hook and loop
fastener

Art. 001702
PIGLET SPLAY LEG TAPE

WITHOUT CHAIN

Art. 146510
NATURAL BITING CYLINDER

COMPLETE WITH KIT
FIXING
play for pig well-
being, to hang or to
be mounted on
pipes

Art. 146500
BITING CYLINDER FOR PIGS

In natural material,
for animal well-
being, available
diam.
8-10-12 mm.

Art. 149012
COTTON ROPE REEL 100m 20mm

in natural
material, for
animal well-
being, roll mt
400

Art. 149000
JUTE ROPE COIL DIAM. 6/7 mm

cm. 50x80, 400gr
M2 non-slip,
absorbs and
keeps the piglets'
nest dry

Art. 131420
EMBOSSED PAPER SHEETS
100pcs

to help the
extraction of
piglets during
calving

Art. 009710
DUTCH PIGLET FORK

tested disinfectant
efficacy, for the well-
being of animal skin.
Suitable for spray
and immersion
applications

Art. 153700
KENODIN SPRAY AND DIP LT.20

Shampoo specially
researched for
animals, easy to
use, does not
irritate the eyes
and leaves a
pleasant smell of
pine

Art. 153600
KENOPRO KG.25

liquid shampoo for
cleansing sows and
boars, helps to limit
microbial exchanges
between the various
sectors

Art. 124600
KERACID SHAMPOO SOWS LT.5

adjustable speed,
diamond tool diam.
6mm

Art. 114910
DREMEL PIG FILES 220V

interchangeable
diamond tool

Art. 114901
TOOL DIAM.6 FOR PIG FILES

concentrated
industrial
deodorant, also
useful in
equalizing

Art. 113800
MASKOMAL x LT.5

Foam with effective sanitizing and detergent action, does not require rinsing. Effectively eliminates dirty, insects and bacteria

**Art. 152600
NEOPREDINOL FOAM LT.10**

spray dispenser,
capacity 3lt

**Art. 152601
NEOPREDINOL: DISPENSER**

Anti-bite spray,
solves cannibalism
problems. It has a
lasting effect over
time.

**Art. 030401
NO BITE SPRAY 400 ML**

for the pigs welfare
in the farm

**Art. 130600
PIGLET BALL ANTI-STRESS DIAM.30**

IN NATURAL
RUBBER
Pig welfare toy, to
hang

**Art. 146400
BITING BALL 55mm**

IN NATURAL RUBBER
Pig welfare toy, to
hang

**Art. 146410
BITING BALL 75mm**

POLYSTYRENE

CAST IRON DRINKING BOWL WITH NOSE PADDLE

LOCKABLE NOSE
PADDLE supplied
with special brass
fitting for a safe
connection to the
water pipe, wall or
pipe, metal
reinforcement

Art. 047118
DRINKING BOWL K71 PLASTIC

WITH NOSE PADDLE
possibility of
accessories such as
lockable paddle,
fixing bracket and
stabilization plates

Art. 047171
DRINKING BOWL KN50 PLASTIC

Equipped with valve cover with snap hook for wall and tube mounting. Drain plug.

**Art. 047170
FLOATING DRINKING BOWL S30**

liquid additive to acidify drinking water. Improves digestion and absorption of nutrients.

**Art. 153900
AGROID SUPER COMPLETE KG.25**

mixture of organic acids, lowers the pH of water. Improves palatability and water and food intake.

**Art. 154000
AGROID SUPER FD KG.25**

AUTOMATIC LIQUID FLEXIBLE FEEDER
Automatic and flexible feeding system with powdered milk. Can replace the sow or help her in large broods

**Art. 149200
ALFF AUTOMATIC FEEDER**

direct connection to the water network, with water heater, double function feeding and post-weaning feeder

**Art. 121850
MILKIWEAN FEEDER**

MILK WAGON for the transport of pre-heated milk to buckets and dispensers for calves / piglets. Pneumatic wheels for all surfaces.

**Art. 151800
STAINLESS STEEL MILK CART 100 LT**

3 WHEELS cm. 100 x 50 /55/60 - Stainless steel feed cart, with three pneumatic wheels. Suitable for all surfaces.

**Art. 042400
STAINLESS STEEL FEED CART**

service cart for treatments in breeding, MEASURES: cm. 126x46. Customizable by choice

**Art. 133610
SANITARY CARRIAGE FOR BREEDING**

made of
polypropylene,
easy to fix, to close
the cracks of
concrete gratings

Art. 137500
CLICK IN FOR GRATINGS

Memory for 60,000
measurements,
adjustable recording
range, status and
alarm LED.
Including wall
bracket. Various
models

Art. 151100
DATA LOGGER LOG32 USB TEMP.

Ultra-concentrated
diesel additive, with
advanced protective
components and
detergents.
Effective
antibacterial,
lubricating action,
reduces
consumption

Art. 143810
DRIVER PLUS K 15 EVO lt.5

for temperature and
humidity
measurement in
packaged forages,
with 200 memories
to achieve detection
averages

Art. 041560
FORTESTER 200

PACKAGING 5 PCS

Art. 078111
SMOKE GENERATORS 240 SECONDS

PACKAGING 10 PCS

Art. 078110
SMOKE GENERATORS 65 SECONDS

Simple to use, it
has a precise
digital reading
with a decimal
after the comma.
In shockproof ABS
plastic, with
aluminum
measuring cell.

Art. 060840
GRAIN CHECK TESTER GRAINS

Practical and quick
to use, it allows the
measurement of
large quantities of
cereals. Built-in
scale, automatic
temperature
compensation
system

Art. 060850
GRAIN TESTER PLUS

high efficiency
motor 1450 rpm -
thermal protection
of the motor - cover
in AISI 430 stainless
steel. Various
models on request

WATER ACIDIFICATION

AGROID SUPER COMPLETE

Code 153900 tank kg 25

Code 153905 bin kg 220

Code 153910 cistern kg 1000

- liquid additive to acidify drinking water, able to improve digestion and absorption of nutrients, ensuring a higher feed conversion rate and a consequent higher growth rate.

AGROID SUPER FD

Code 154000 tank kg 25

Code 154010 cistern kg 1200

- mixture of organic acids capable of lowering the pH of water and/or feed. Lactic acid improves palatability and water intake, while promoting feed intake. Ensures microbiological stability. It is recommended for organic farming.

D50 LEAFLET PIGS

Code 155000 tank kg 10

- Disinfectant with a broad spectrum of action very effective and active against bacteria, viruses and fungus. It has an innovative protective effect for livestock facilities, water distribution systems and drinking nipples. Thanks to the 100% biodegradable formula, it is also certified for organic and biologic production.

WHY USE A DOSATRON?

Based on decades of experience and millions of items sold worldwide,

Dosatron guarantees:

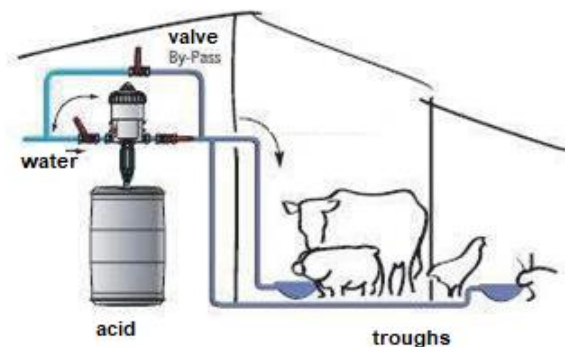

- Safety and precision of dosing in wide flow and water pressure ranges
- Easy installation and use (non-electrical)
- Excellent homogeneity (even at low water flow: small sheds or young animals)
- Technology that does not present risks of overdose, projection, or loss of the pure product.
- Automatic pump draught up to 4 meters
- Easy maintenance
- Hydraulic motor of exceptional resistance

complementary feed based on yogurt pectins, ideal in cases of diarrhea in calves and piglets, partial or total milk replacer

Art. 069860
REMEIPEKT bucket KG.10

REMEDYPEKT

Complementary feed for calves

REMEDYPEKT is a mix of substances useful to buffer gastro-intestinal problems in young infant animals, mainly composed of YOGURT PECTINS, combined with a balanced mineral and energy vitamin component. The product has the interesting characteristic of being able to be partial or total substitute for milk depending on the enteric forms to be treated. It therefore becomes a product of extreme versatility to treat almost all the situations present in breeding. Simple to prepare and dilute, the product is extremely palatable and tasteful for animals. Particularly indicated in case of: food imbalances, enteric forms, indigestion, dehydration and to re-stabilize the electrolyte and energy balance in calves and piglets.

METHODS OF USE - CALVES

SEVERE DIARRHOEA:

Discontinue the reconstituted milk feed and use as follows:

Dosage: 100gr of REMEDYPEKT in 2L of water.

I ° – II ° DAY: administer in 3 daily meals at a distance of 6 hours from each other.

III°– V° DAY: to the progressive improvement integrate the milk with REMEDYPEKT until the complete disappearance of diarrhoea.

MILD DIARRHOEA:

DAY I: Provide 100gr of REMEDYPEKT in 2Lt of water divided into three daily meals.
Day II-III: replace REMEDYPEKT with milk as the main food. Then mix REMEDYPEKT with milk until the symptom completely disappears.

DIGESTIVE DISORDERS, STRESS, STALL CALVES:

I° DAY: provide 200gr of REMEDYPEKT x 4lt of water.

II° - VII° DAY: 2-3 l of milk and 2 lt of REMEDYPEKT (100gr) in the two main meals.

VIII° DAY AND BEYOND: gradually restore the ration to normal.

REMEDYPEKT

Complementary feed for piglets

METHOD OF USE - PIGLETS

EATING DYSFUNCTIONS

Suckling piglets: 50gr of REMEDYPEKT per liter of drink available for 5 days.

WEANING

50gr of REMEDYPEKT per liter of beverage available for 2 days. Continue the administration of REMEDYPEKT for another 3-5 days, progressively increasing the amount of solid food until the desired ration.

PACKAGING: bucket 10 Kg

NOTE: The animals' fluid requirements are 10% of live weight. In the course of enteric diseases this requirement increases to 20%.

Ensure these requirements to maintain the health and welfare of the animals.

Made of aluminum, extremely lightweight, with deep grooves for maximum stability

Art. 147020
MILK BAR TUB FOR 6 CALVES

FOR COLOSTRUM
Specific for
colostrum, it
facilitates the
training of calves.
Ensures saliva
production,
increasing the
immune system

Art. 147011
MILK BAR: YELLOW TEAT

With specific design
to prevent irritation
of the upper part of
the calf's mouth.
Hygienic, does not
rotate, does not
loosen, ensures the
right suction
speed.

Art. 147012
MILK BAR: BLACK TEAT

available sizes
2,00x90 - 2,50x90 -
3.00x90 mm

ANIMAL BRUSHES

A real revolution for animal welfare

CLEANLINESS AND HYGIENE

They operate a deep cleansing, reaching every part of the body, improving epidermal perspiration and avoiding the formation of lichens and fungi

REMOVE PARASITES AND INSECTS

Animals clean themselves from annoying insects and parasites, greatly increasing well-being, health and comfort

INCREASE PRODUCTIVITY

It is scientifically proven that the cow or goat in a situation of well-being and health can increase milk production up to 1 kg per day

EASY INSTALLATION AND USAGE

Easy to install tool, it is managed by a control unit that does not require further intervention by company personnel. Animals easily learn to use the brush on their own, satisfying their natural need to scratch, thus decreasing stress and annoying behaviors and making their management easier by operators.

Rotating Pendulum Model

- Particularly suitable for its adaptability to the animal's shapes, it has an **extremely wide range of action** that can reach easily every part of the body, operating a complete and deep cleansing.
- Equipped with a **reinforced arm**, it is particularly resistant to impacts and guarantees a long service life.
- Innovative **hourglass roller**, it has been designed to adhere perfectly to various parts of the body and adapt to all sizes.
- The brush is equipped with **bearings** and **reinforced kingpins**, to ensure the optimal inclination necessary to reach every part of the animal's body.

Model DOUBLE BRUSH

- Model equipped with **two rollers** able to massage the animal's side and back at the same time.
- Equipped with **reinforced polypropylene bristles**, the massage is deep and eliminates parasites and insects, reducing stress.
- The **tilting system** allows the animal to operate the brush by lifting the roller, in perfect autonomy. The reinforced spring system rises up **the brush** to 20 cm. adapting perfectly to the different animal's sizes.
- Equipped with **cast iron reducer** specially designed to ensure a perfect fit for a deep and thorough cleaning.

- Model designed specifically for **small animals**, such as calves or goats, the roller of this brush can reach every part of the body, operating an effective cleaning.
- The brush is fitted with **bearings and reinforced kingpins**, to ensure optimal inclination and long service life.

Brize® Plus

CHARACTERISTICS

Brize Plus

Dries the litter and atmosphere,
reducing pathogenic germs
(Salmonella, E-Coli, Coccidiosis)
Kills bacteria
Neutral, non-toxic, and non-
irritating pH
Reduces bad odors
Prevents the development of fly
larvae
Does not oxidize
Spreads easily, does not create
lumps

ADVANTAGES

Brize Plus

EFFICIENT

Brize Plus ® absorbs more than 1.8
liters / kg in just a few minutes.

ECONOMIC

Brize Plus ® is sold, despite everything, at a
low price, with a high absorption capacity.

PRACTICAL

Brize Plus ® does not get muddy
and slippery. It makes lumps and so,
cleaning is easier.

SCENTED AND DECONTAMINATING

Brize Plus ® with Eucalyptus essence. This
ingredient with its expectorant benefits,
purifies the atmosphere of breeding
accommodation. Abatement of odors
through the reduction of ammonia.

INSECTICIDAL ACTION

Brize Plus ® is also insect repellent and
prevents the development of larvae.

LIMITATION OF CONTAMINATION

Brize Plus ® includes specific and selected
saprophytic bacteria in the formula .
Their action and development on the
basic surface allows to limit, to the point
of inhibiting the development of a
pathogenic flora.

High fermentation of manure with
greater soil improver capacity.

DIFFERENT USAGE APPLICATIONS

Drying of piglets born and
consequent greater well-
being.

Complete umbilical cord
healing.

Faster colostrum intake.

Reduction of the risk of
contamination during the
first feeding.

Reduction of stress during weaning (smell of
the product related to that of the mother).

Brize Plus ® distribution
directly by hand.

Brize Plus ® distribution
with battery-powered
portable diffuser.

With Brize Plus ®, animals
grow in a dry atmosphere.

Brize® Plus

SEAWEED-BASED ORGANIC LITTER FOR THE HYGIENE OF YOUR FARMS

BRIZE PLUS® is a new natural blend composed of marine algae and plant essences with high action in reducing odors, sanitizing environments and reducing the rate of ammonia.

BRIZE PLUS® has an inhibitory action on the proteolytic flora producing ammonia and pathogenic flora to the advantage of cellulolytic flora.

BRIZE PLUS® contains eucalyptus essential oil to prevent the development of pathogenic bacteria.

BRIZE PLUS® is suitable for all types of farms and can also be used in organic farming. Proper management of the level of health in farms is a fundamental condition for obtaining better performance and offering animals a more comfortable environment in which to live.

BRIZE PLUS® complies with the use in ORGANIC FARMING CEE regulation 2092/91

USAGE DOSAGES

Sows: 60g / day in gestation, behind the sow and in the farrowing area. The peculiar smell avoids the struggle in the formation of groups.

Silts: 70g / day in straw or sawdust bedding. The peculiar smell avoids the struggle in the formation of weaning groups.

Farrowing area: distribute Brize Plus in the nests and behind the sow before calving. The product can be applied directly to piglets after birth. The goal is to limit the spread of bacterial contamination and dry the newborn piglet.

Cattle:

Dairy cows in the barn: 200g / cow spread 3 times a week, depending on humidity level and situation.

Dairy cows in box: 100g / cow / day, spreading, according to humidity level and situation.

Calves in single box or groups: 80g/ square meter, spreading, 3 times a week, depending on humidity level and situation.

Sheep, goats: 50g / m² / week.

Turkeys, hens : 50g / m² / week from the second to the tenth week .

Chickens : 50g / m² twice a week from the second to the fifth week.

Ducks : on straw: 70g / m² daily from the 1st day to the twelfth week.

Horses : before renewing the litter, distribute 2-3 kg of Brize.Plus. To keep a litter clean and dry, and to absorb moisture distribute 1 kg twice or 3 times a week.

METHOD OF USE

Manual shoveling directly into the affected area according to health situation.

With vending machine (photo), which in addition to ensuring a homogeneous diffusion in all the points to be treated, allows a product saving of up to 20%.

PACKAGING

GENERALFOAM

GENERAL PURPOSE CLEANER AND DEGREASER

Areas of application:

Detergent for manual use used for cleaning particular machines, equipment, walls, floors, vehicles, etc.

It is used on stainless steel surfaces, galvanized iron, aluminum, glass, plastic materials without damaging them.

Its degreasing formula has been enhanced for specific applications on particularly difficult organic dirt.

Features and properties:

Foaming detergent, straw-colored, medium viscosity, consisting of a mixture of biodegradable anionic and non-ionic surfactants.

It has a strong degreasing and emulsifying power and its solutions in water are not irritating to the skin, thanks also to the value of its pH.

It is easily rinsed, leaving walls and objects well cleaned and shiny.

It can also be used in hard water while maintaining its characteristics.

How to use:

GENERALFOAM can be used for brush, sponge, lukewarm or hot water washes at average concentrations of 0.2-1%.

The same methods of use are also observed for soaking washes. For very tough dirt, use even at concentrations up to 5-10%.

Tank 20 kg

SAE TUBE MOD. 100 R2 3/8 MT.10

WASHING ROBOT FOR LIVESTOCK FARMS

ADVANTAGES

- **BIOSECURITY:** it reduces the risk of infectious spread, ensuring a clean and healthy environment and increasing animal welfare, the basis for profitable production.
- **BETTER WORKING ENVIRONMENT:** using a washing robot leads to better health of the staff, who also have more time to supervise the farm.
- **ECONOMIC ADVANTAGES:** reduced turnover and better health of the staff, low water consumption, reduced costs for manual washing, better management of the farm with consequent increased animal welfare and better production results, lead in a short time to make a washing robot an excellent financial investment.

ART. 133850 ROBOT EVO CLEANER

- Built with **quality materials**, such as stainless steel, aluminum, plastic, and maintenance-free bearings. Only one annual maintenance is recommended.
- **Automatic washing** 24h non-stop, with sending text message at the end, allows an **extremely efficient washing**.
- Easy joystick learning and a clear interface allow you to **program** and **design** the optimal washing routine according to the specific needs of the farm.

- **Programming needs to be done only once time**, and is stored in the cloud. It can be easily modified to adapt to new needs.
- The **4G/Wi-Fi Internet connection** allows updates, backup, support and alarm function via SMS.
- Thanks to precise movements, the robot has a **low water consumption**, about 14.5 Lt/minute.
