## Digital Semen Superthaw™ Flask with AI Gun Warmer Lid

Semen Thawing

AI Gunwarmer Lid

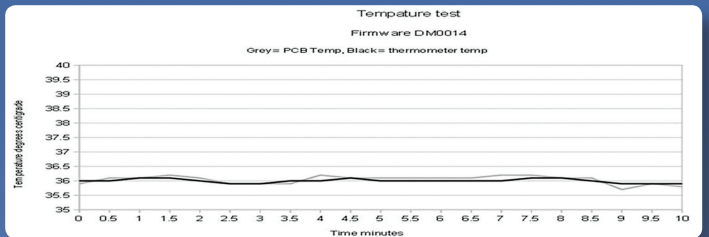

Fully Adjustable  
Temperature  
from 20°C (68°F)  
to 45°C (113°F)

Countdown  
Timer

*"This is the best thaw  
flask we have ever  
used."*

Programmable Temperature

- Professional digital thaw flask for correct semen handling
- Adjustable digital temperature 20-45°C (68-113°F)(99% accuracy)
- Programmable timer up to 10 mins in 1 second increments
- Removable AI gun warmer chamber and straw basket
- Watertight lid and insulated stainless steel water bath
- Highest levels of safety with a thermal cut out switch, pressure relief valve and full CE, UL, cUL certification
- Wide range of country specific models with correct plug and power supply available e.g. UK, EU,US, Australia, NZ, India, SA etc.

### Background - The Facts!

It is very important that bull semen is thawed consistently at the right temperature and for the correct time. You should always consult your semen provider as to their actual recommendations:

- Normal and Sexed Semen are typically thawed at 35-37°C (95-98°F) for 30-45 seconds

If this does not take place then a percentage of sperm will die long before they ever see a cow, this has even greater consequences for sexed semen and older straws.

Our new Dairymac Superthaw™ is designed and manufactured in the UK and based on a comprehensive list of 'needs' and 'desires' in our discussions with farmers, AI technicians and vets.

Designed and Manufactured  
in the United Kingdom

### Available as:

- **18500G** Dairymac Digital Semen Superthaw™ Flask AI Gun Warmer Lid -220v AC /12v DC with UK 3 Pin Plug and 12 Volt Vehicle Lead
- **18501G** Dairymac Digital Semen Superthaw™ Flask AI Gun Warmer Lid - 220v AC /12v DC with Euro 2 Pin Plug and 12 Volt Vehicle Lead
- **18502G** Dairymac Digital Semen Superthaw™ Flask AI Gun Warmer Lid - 120v AC /12v DC with US 2 Pin Plug and 12 Volt Vehicle Lead
- **18601G** Dairymac Digital Semen Superthaw™ Flask - Spare AI Gun Warmer Lid - **Can Be Fitted To Any Superthaw Unit**
