

Blue Selenium Bolus™

Dietetic Selenium-rich trace element bolus for dry cows

Blue Selenium Bolus is a slow releasing trace element bolus for dry cows above 150 kg, providing the animal a sufficient supply of selenium and other important trace elements and vitamins, when they are fed a base feed ration. Blue Selenium Bolus is released over 120 days (4 months), and releases the most important trace elements and vitamins daily.

Blue Selenium Bolus contains:

Daily supply from 2 boluses in 120 days

Selenium	2.4 mg
Copper	98 mg
Cobalt	4.0 mg
Iodine	16.7 mg
Manganese	152 mg
Zinc	254 mg
Vitamin A	7559 I.U.
Vitamin D3	1512 I.U.
Vitamin E	19.5 I.U.

Benefits and effect:

- Releases a daily supplement of trace elements over 4 months
- Secures sufficient selenium supply, which is important around calving
- Optimises animal general health
- Minimises risk of failure – the cow gets the intended amount
- Easy to administer with a bolus applicator

Consumption:

- 2 boluses per cow

Packaging:

- 20 boluses per case
- 5 cases per box

Application:

Administer Blue Selenium Bolus with a twin-bolus applicator, providing the animal with two boluses at once. Blue Selenium Bolus is slowly released over 4 months. Should not be administered for cattle below 300 kg. Simultaneous supplementation of additives with a maximum content from other sources to those incorporated in a bolus, if applicable, shall be avoided.

Before using, it is recommended to have advice from a veterinarian or nutritionist concerning: 1) the balance of trace elements in the daily ration; 2) the trace elements status of the herd.
